Turvallisuusalan ammattitutkinto
Yrkesexamen inom säkerhetsbranschen

Qualification requirements entered into force on 01.01.2019 (OPH-2655-2017)

Translated title of the qualification (EN)

Further Vocational Qualification in the Security Sector

This translation has no legal status.

Profile of skills and competences**Composition of the qualification**

The further vocational qualification in the security sector (150 competence points) is composed of compulsory units (90 competence points) and optional units (60 competence points).

Vocational skills and competences required for completion of the qualification

Holders of the further vocational qualification in the security sector are familiar with private security sector tasks and services, the rights and duties associated with performing them and, as far as necessary, legislation related to security sector tasks. They are familiar with the authorities relevant to the tasks in the private security sector, the core tasks of these organisations, and the different areas of corporate security. They are aware of the risks associated with private security sector tasks and the most common exceptional situations and know how to observe the requirements of occupational safety. They are also aware of the impacts that different environments have on the nature of the activities in terms of the tasks to be performed, situations encountered, and relevant legislation.

Holders of the further vocational qualification in the security sector understand that their occupation is about customer service and know what to do in situations involving accidental damage, problems, or conflicts. They have a strong command of the basics of interaction skills as well as verbal and nonverbal communication and draw on these abilities in their work.

Holders of the further vocational qualification in the security sector have basic knowledge of structural safety, technical supervision, and different surveillance methods in buildings. They are familiar with technical security and communication systems, structural safety, and surveillance of individuals. They know how to draw up the documents needed in their work and are familiar with the principles of reporting. They are familiar with the necessary security equipment and coercive devices.

Holders of the further vocational qualification in the security sector have mastered the basics of rescue activities and preparing for emergency conditions. They are familiar with the basics of fire safety and know what to do and how to minimise damage in fire prevention, in case of a potential fire and in prevention of secondary effects. They also recognise the labelling and know the properties of the most common hazardous substances. Additionally, they are able to administer life-preserving and psychological first aid.

Range of occupations accessible to the holder of the certificate

Holders of the further vocational qualification in the security sector may work as security sector entrepreneurs or be employed by businesses, for example as security guards, receptionists, security stewards, security officers appointed to assist the police or the Border Guard, retail security officers,

transporters of valuable goods, bodyguards, security check officers, security guards with fire officer duties, or supervisors.
